-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Specification

The disclosure is objected to because of the following informalities:

On page 1, Applicants need to provide a statement to the history of the case (i.e., The application is a divisional of Serial No. 08/197,497, filed February 16, 1994, now U. S. Patent No. 6,689,422).

On page 15, Applicant needs to provide the appropriate information (i.e., Serial No./Patent No.) with respect to attorney docket no. Howmet 344.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 23-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 23, lines 5-6, “the first coating gas” lacks antecedent basis.

In claim 23, line 9, “the gettering element” lacks antecedent basis.

In claim 24, line 3, “the unconverted portion” lacks antecedent basis.

In claim 25, line 3, “the gettering element source” lacks antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by Sarin et al (US 4,890,574).

Sarin et al teach an apparatus for forming a chemical vapor deposition coating gas comprising means for providing a source of halide precursor gas (not shown; see col. 3, lines 1-3), means (10 or 12) for flowing the halide precursor gas in contact with a first source comprising at least one metal (8, see col. 3, lines 14-20 and lines 27+), coating retort means (3), and means (5, 7) for flowing the first coating gas into the coating retort in contact with the at least one metal including a reactive metal or element to convert a portion of the first coating gas so as to codeposit at least one or more metals on the substrate.

Allowable Subject Matter

Claims 24 and 25 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura E. Edwards whose telephone number is (571) 272-1227. The examiner can normally be reached on Monday-Friday.
